## Wood construction Professional

The Professional stand can be expanded with various options for furniture and a kitchen unit. Due to the combination of various variations, possibilities and timber construction, this stand construction has a luxurious appearance. Our stand construction partner for these stands is Lasso Events.

The standard wooden construction 'Professional' consists of:

- Escolita carpet tiles color choice incl. cover foil;
- All walls and door panels in wooden construction 250 cm high in white flannel;
- If you want your walls in a different color, you can have this done in consultation with Lasso;
- Door panels;
- Coveing frames 20x20 cm along the back and/or side wall in natural wood;
- Upright 20 x 50 cm at the ends of the back and/or side wall in natural wood;
- Eye-catching wall 400x200 cm, with cove construction all around in natural wood;
- Block at the top of the eye-catching wall for mentioning name in white;
- Painting work;
- 2x pendant spotlight on eye-catching wall;
- Recessed spots in coves along the back and/or side wall;
- 3 x company name on eye-catching wall and end walls in standard;
- Font and default color;
- Electricity; 3.5 kW main connection
- Costs for the visitor registration;
- Internet connection (WiFi)

You can further personalize your stand at additional costs:

- Extra text on logo panel eye-catcher wall of up to 25 letters in black
- Company logo on the eye-catcher wall (instead of the company name)
- Walls in a different color flannel
- Full color print on eye-catcher wall
- Full color print on the walls

**Note:** in the "Professional" stand construction walls you are allowed to screw to hang something, but no holes, etc. can be made. Costs for a damaged wall are € 100.00 per wall.
