

# Call for Posters / Abstracts for the Sensor Conference 'The Sense of Contact 18'

Beurs van Berlage, Amsterdam December 14<sup>th</sup> 2016

Companies and researchers are now invited to submit abstracts on sensor technology, sensors, sensor systems and sensor applications for the poster sessions at the yearly Sensor Conference "The Sense of Contact" edition 18

central theme

## *Sensors for People, Industry & the Environment*

the following topics are defined for 2016:

- *Enabling Sensor Technology & MEMS Integration*
- *Sensor Technology for Life Sciences & Health*
- *Sensor Technology for Industrial Processing*
- *Sensor Technology for Infra & Environment*

The Sense of Contact is the place to be for everyone applying or developing sensor technology and looking for future collaboration in this field. Answering this call gives the opportunity to be actively involved in the Sense of Contact sensor conference/symposium.

The conference focuses both on recent results from sensor technology research & development and challenges for future r&d. The aim of Sense of Contact is to bring together academia and industry to exchange ideas and knowledge for new sensors, sensor systems and applications.

This year extra opportunities for companies, entrepreneurs and scientists for high technology and academic crossovers are created through the co-location the International MicroNanoConference. The poster area of Sense of Contact will also be open for attendees of the International MicroNanoConference, visa versa.

To learn more about the preliminary program of the conference, please look at <http://senseofcontact.nl/programme-2016/>

For more information on the International MicroNanoConference <http://www.micronanoconference.org>

All abstracts submitted will be reviewed by the program committee.

### Poster Award

During Sense of Contact a jury will select the best poster. The jury will base their judgement on:

1. Clarity of the poster in the way it communicates
2. The ability of the presenter to clarify the work in a deliberation.
3. Novelty of the approach in the project presented.

### Poster elevator pitches

In addition to last year's Sense of Contact edition, you now will have the chance to pitch your poster and research. During two plenary sessions, prior to the poster sessions, you have the opportunity to pitch your research in four minutes. If you want to take this opportunity to place your research and poster in the spotlights, please indicate this at your abstract submission.

### Booth presentation

For companies and/or research institutes there is the possibility to combine a poster with a professional booth in the conference exhibition. For conditions please look at the website <http://senseofcontact.nl/exhibition/> and contact Susanne van Boxtel [susanne@fhi.nl](mailto:susanne@fhi.nl)

### Deadline

The deadline for abstract submission is **October 28th, 2016**. Guidelines are given below.

The abstracts can be submitted by e-mail to:

Susanne van Boxtel (projectmanager Sense of Contact)  
 FHI / MinacNed  
 Tel: (033)- 434 7517; E-mail: [susanne@fhi.nl](mailto:susanne@fhi.nl)

### Time schedule

<b>28 October 2016</b>	<i>Deadline abstract submission</i>
<b>14 November 2016</b>	<i>Notification of acceptance</i>
<b>14 December 2016</b>	<i>Sense of Contact 18</i>

### Venue

The Sensor Conference 'The Sense of Contact 18' takes place at the Beurs van Berlage, Amsterdam. The International MicroNanoConference 2016 will be co-located at the same venue.

### Submission guidelines for the abstracts

**Abstracts in English, with a maximum of 300 words can be submitted; longer abstracts cannot be processed.** A submission implies the intent of at least one author to register and to attend Sense of Contact 18, and present the abstract in poster format.

If the submitted poster/abstract is honoured, participation as attendee in the conference will be free of charge.

### *Abstract guidelines*

- ABSTRACT TITLE
- AUTHOR LISTING (all authors, principal author first), mailing address, telephone, fax, and e-mail.
- Normal text is to be single interline spaced in 14-points Times (or similar font).
- ABSTRACT TEXT one page summary approximately 300 words should provide information about:
  - Purpose: State the relevance of the research problem, the research goal, context and intended or possible applications
  - Materials and Methods: State the materials and methods applied in the research and the approaches presented in the poster
  - Results: Describe the obtained research results presented in the poster
  - New work: What is new work, state the progress made with respect to e.g. another paper or (last year's) presentation
  - Conclusions: statement of the conclusions reached in the presentation / paper
  - References: one or two references to related or cited work
  - Possible application areas of the research results from the point of view of the researcher
- KEY WORDS: List a maximum of five key words
- Logo from company, research institute, university

### Program committee

Ir. Rolf de Boer (Smartec)  
 Prof.dr. Paddy French (Delft University of Technology)  
 Dr. Ir. Wybren Jouwsma (Bronkhorst High-Tech)  
 Sophia Rammelt, MSc (Incas<sup>3</sup>)  
 Drs. Kees Groeneveld (FHI, Federation of Technology Associations)

## Poster Submission Sense of Contact 18

December 13 & 14 2016, Beurs van Berlage Amsterdam

**ABSTRACT TITLE**

**AUTHOR LISTING**

**ABSTRACT TEXT** (approximately 300 words)

**KEY WORDS:** List a maximum of five key words

**LOGO** from company, research institute, university

E-mail your abstract to: [susanne@fhi.nl](mailto:susanne@fhi.nl) (Susanne van Boxtel, project manager)
