Introduction Wibu-Systems

- Founded in 1989
- Headquarters in Karlsruhe, Germany
- Team of more than 120 professionals
- Strong international presence

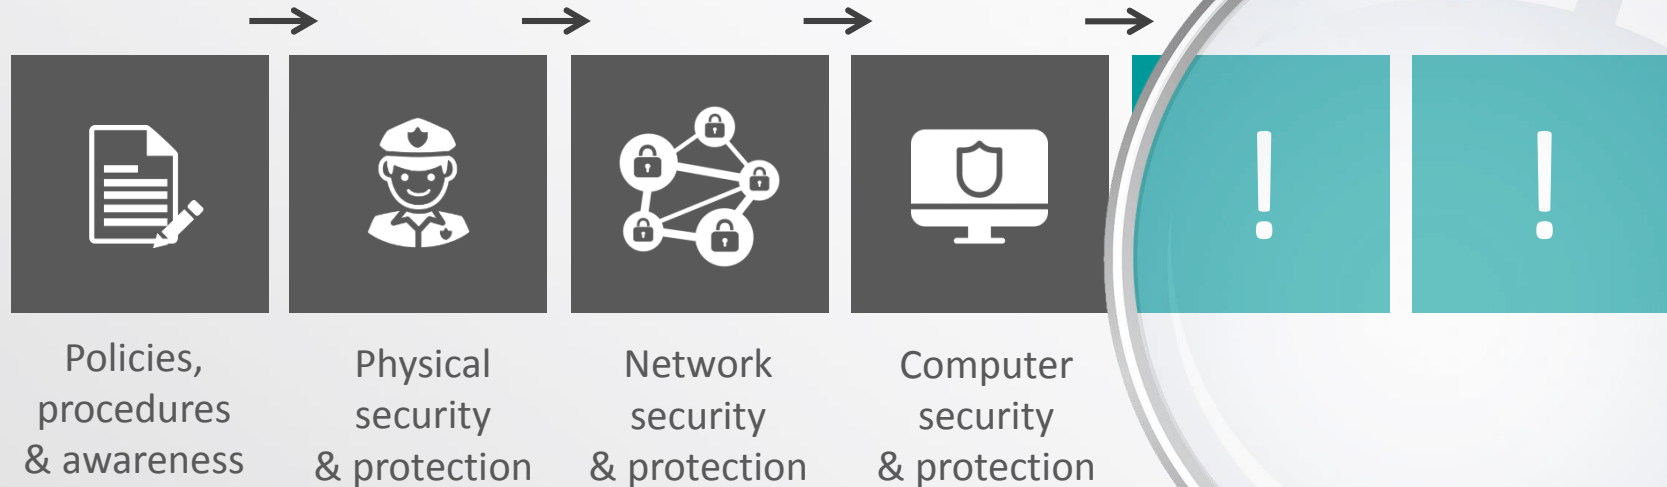

J-W van de Blaak
Regional manager The Netherlands

Security measures

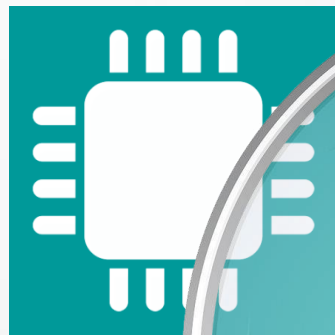

What happens if someone physically breaks in at your company tonight?

Application and device security

APPLICATION SECURITY
& PROTECTION

DEVICE SECURITY
& PROTECTION

Wie past er al beveiliging toe op
zijn hard- en/of software?

Software is everywhere

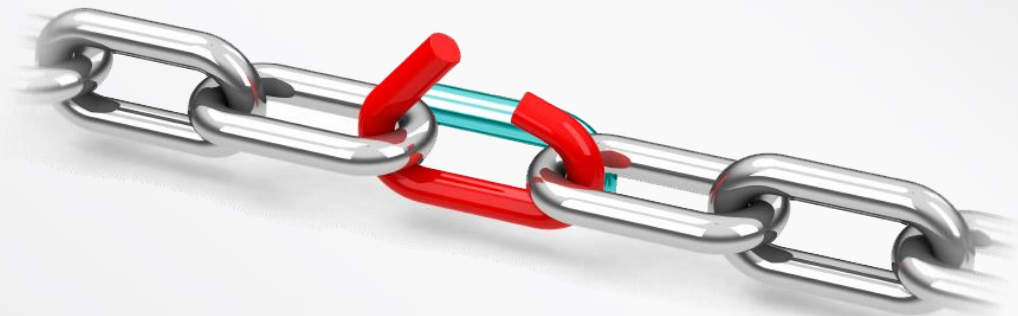

It's all connected!

Software is everywhere

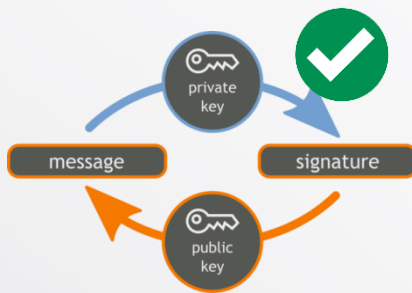

set temperature to 90 °C

Chain of trust

Encryption

Signatures

Certificates

Device security

- Integrity checks from pre-bootloader to operating system
- Secure Elements with CC EAL5+ and FIPS 140-2 evaluated smart card chips designed for cryptography
- Remote firmware updates

Available technologies

- Encryption of C, C++, C#, Java & other applications
- Crypto libraries & API for standard and embedded platforms
- 128-bit AES, 224-bit ECC, 2048-bit RSA encryption algorithms
- Public and private key management

Software security Trends

Extracting

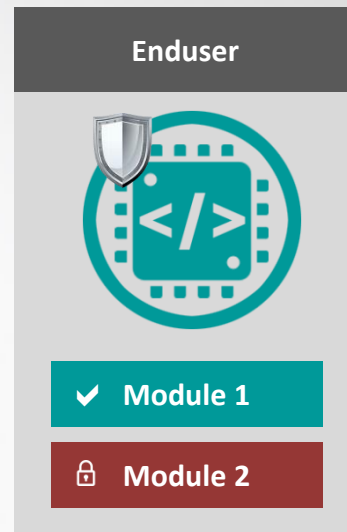

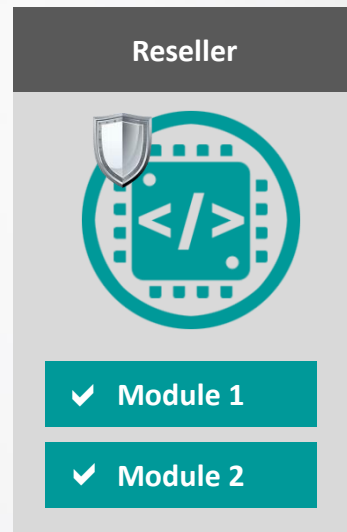

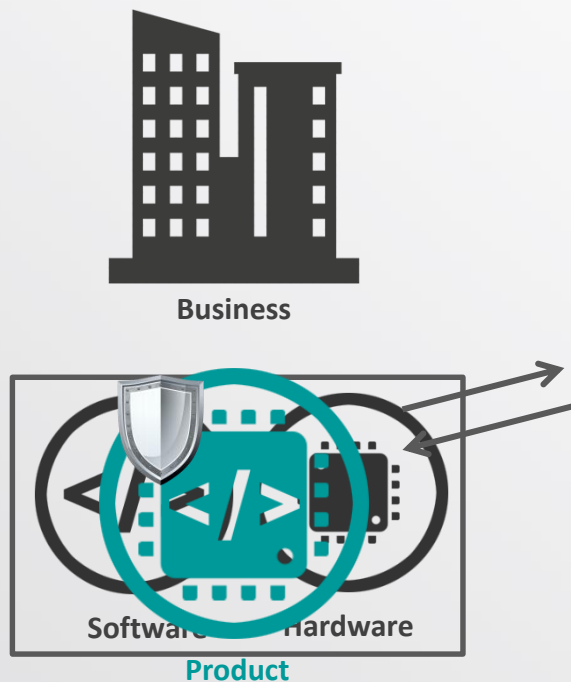

Always develop your product with
'Security by Design'

The diagram features two lightbulbs. The left lightbulb contains a grey brain and a black circle with a white exclamation mark. The right lightbulb contains an orange brain. An orange arrow points from the left lightbulb to the right lightbulb. The text 'Always develop your product with' is in white, and 'Security by Design' is in white and underlined. The background is a dark red rectangle.

Re-producing

Protecting your Intellectual Property is a requirement!

How it works

Wie levert er verschillende versies
van zijn product?

BASIC

€399,-

60kWh
Airco

PERFORMANCE

€599,-

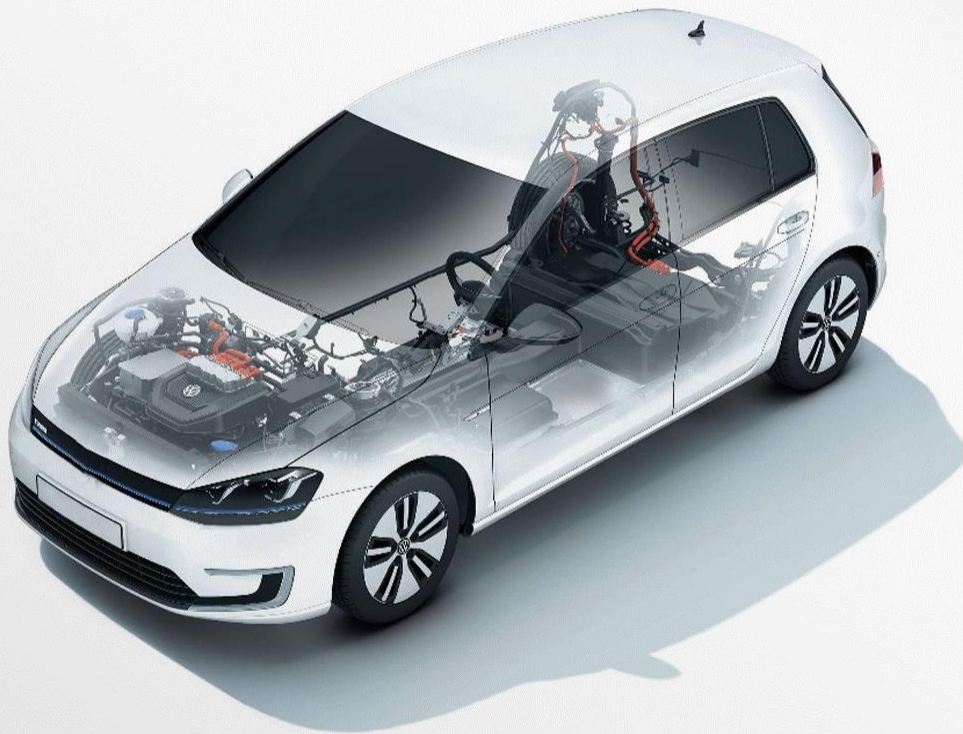

75kWh
Airco
Navigation
Fast Charging

ULTIMATE

€799,-

75kWh
Airco
Navigation
Adaptive lighting
Fast charging
Heated seats
Auto-Pilot
Selfparking

Additional modules:

- ☒ Airco
- ☒ More power (+15 kWh)
- ☐ Auto-pilot
- ☐ Selfparking
- ☒ Navigation
- ☐ Heated seats
- ☐ Adaptive lightning
- ☒ Fast charging

Total amount p/m:

€599,-

CONFIRM ►

Examples of Maintenance period

- Cold & hot-standby licenses

- Pay-per-use

- Named-user licenses

- Time-based licensing

- Network-based licensing & terminal Server

- Maintenance contracts

Case Study: VxWorks

- CodeMeter encryption utilities integrated in Wind River Workbench
- CodeMeter embedded driver for VxWorks

WIND RIVER

Partnerships & Customers

Best practices

- Design your solutions with security in mind
- Protect your software by encryption
- License your products smart
- The technology is available

Thank you
