Free stand construction

With free construction, the exhibitor pays € 135,- per square meter and the participant takes care of the stand construction and furnishing of the stand, this is possible from 16 m². The rates for free construction do not include the registration equipment. The costs for the registration system of visitors who are required to purchase are € 185 per stand + € 6.90 per square meter.

Standard stand construction

In collaboration with our stand construction partner, the organization offers complete stands at attractive rates. The standard stands are available from 16 m². The standard stand construction consists of floor rental, stand construction, storage, spotlights, electricity, carpet tiles and a registration system. You save time and at low costs your company still gets a professional appearance. The complete stands are available in two variants: basic and construction in wood. The rates include floor rental and visitor registration system. These stands can be further decorated with various options. You can download the standard stand construction specifications at www.wots.nl/downloads.
