Hackers Impersonate Meta Recruiter to Target Aerospace Firm

Prajeet Nair · October 1, 2023

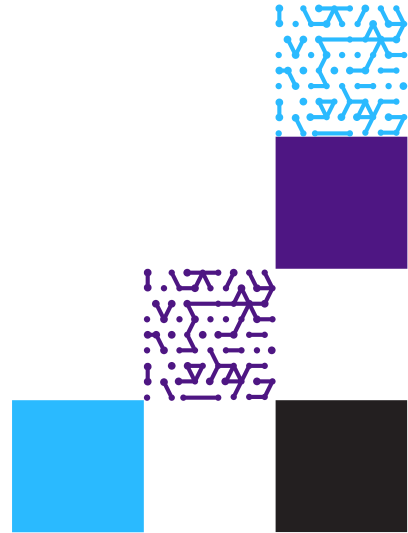

News / DNV admits up to 1,000 vessels affected by ransomware attack

Wat is het dreigingslandschap?

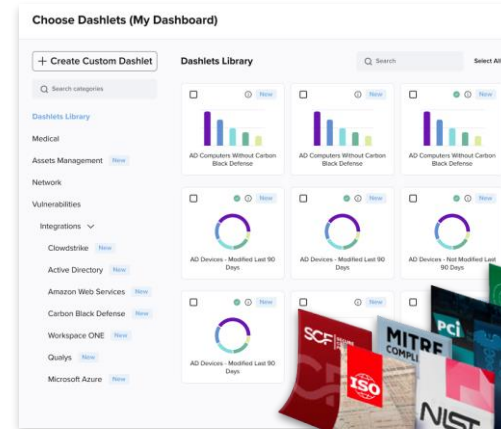

Wat doet de overheid?

Wat is onze eigen verantwoordelijkheid?

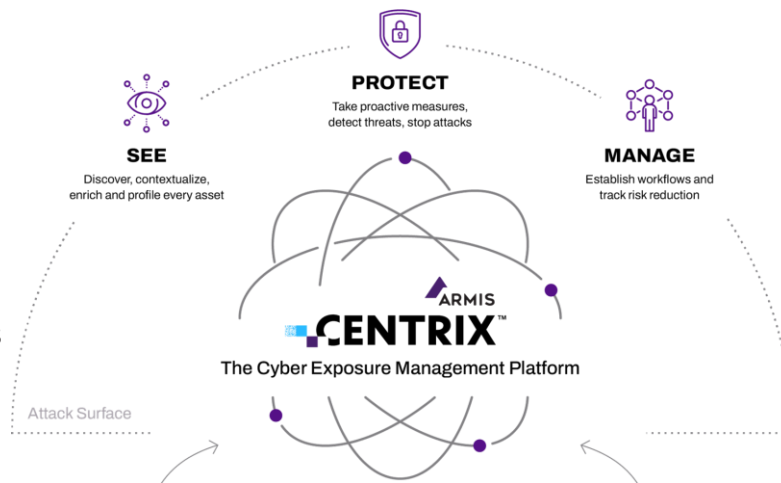

Wat moeten wij dan doen?

- Identify, Protect, Detect, Respond & Recover (+ Governance)
- Valideer externe frameworks implementatie (NIST, CIS, IEC62443, ...)
- Verminder cyber verzekering kost door compliance aan te tonen

Wetende wat we kunnen en moeten doen, wat zou de aanpak dan zijn?

- > Zicht op alle OT/IOT assets
- > Visibiliteit in OT/ICS Security hygiene
- > Bescherming van OT netwerken, monitoren van connectiviteit en tracken van gedrag
- > Uptime verbeteren gebruik makende van Process Integrity
- > Maak de brug tussen IT/OT
